- MongoDB
- React

- Strong Communicator
- Attention to Detail
- Time Management
- Problem-Solver
- Adaptable & Flexible
- Responsive to Feedback

PROFESSIONAL EXPERIENCE

Self (Freelance) - Austin, TX   04/2023 - Present
Full-Stack Web Developer

- Mastered relevant web development skills by completing 21 solo projects and 3 group projects during a 12-week-long full-stack coding bootcamp in order to exemplify my coding abilities and graduate with a certificate
- Featured Projects:
  - *SQL Employee Tracker* (https://jmcmillenmusic.github.io/sql-employee-tracker)
    - Database used to track departments, roles, and employees for a business which allows users to view, add, or update departments, roles, and employees
    - Completed by setting up the initial schema, seeding the database, writing and testing SQL queries, and writing and testing Inquirer prompts
    - Competencies: Node.js, Express.js, SQL, and Inquirer
  - *NoSQL Social Network API* (https://jmcmillenmusic.github.io/nosql-social-network-api)
    - Application programming interface which allows users to create, read, update, and delete users, thoughts, and reactions (similar to posts and comments on social media)
    - Created by setting up the initial schema, seeding the database, writing and testing Insomnia routes, and ensuring full CRUD (create, read, update, delete) capabilities
    - Competencies: Node.js, Express.js, MongoDB, and Insomnia

- ○ *MVC (Model-View-Controller) Tech Blog* (https://jeff-mcmillen-tech-blog-f37a90b6c5d9.herokuapp.com/)
  - Full-stack application that allows users to login/logout, sign up as a user, comment on other users' blog posts, create/update/delete posts, and view all posts
  - Constructed by creating the database, writing and testing routes, creating all Handlebars components, and ensuring full CRUD (create, read, update, delete) capabilities
  - <u>Competencies</u>: Node.js, Express.js, SQL, Sequelize.js, MVC Architecture, and Handlebars.js

J. McMillen Audio (DBA) - Austin, TX   10/2012 - 04/2023
Composer, Sound Designer, Technical Sound Designer
- Fulfilled 7 different game developers' requests for music and/or sounds in their games for a variety of platforms (PC, mobile, and VR) by discussing their projects' needs in-person, adhering to their core design pillars, creating the necessary music/sounds and the playback systems, and responding to feedback in order to allow them to publish on-time and on-budget
- Spoke about the game audio craft at local game developer events, college game development clubs, and even at a fan-focused gaming convention
- Developed and improved the game audio curriculum for Game Worlds, a local kids' game development camp, by employing effective teaching practices to create tutorials for music and sound design utilizing easy-to-use software in order to empower students to be able to craft their own game audio
- <u>Competencies</u>: Music Composition, Sound Design, Technical Sound Design
