“Jeff delivered projects that grew the business and made both clients and ownership happy. His professional attributes are matched only by his qualities as a person; his positivity is energizing.” – Kyle, EdTech Startup

PROFESSIONAL EXPERIENCE

J MCMILLEN CODE

Software Engineer | Full-Stack Developer, Austin, TX

04/2023 - Present

Engaged in freelance projects while seeking a full-time position as a software engineer.

- Developed [NoSQL Social Network API](#) with Node.js, Express.js, and MongoDB, enabling robust CRUD operations and social media-like features (user profiles, thoughts, reactions).
- Built [MVC Tech Blog](#) with full-stack CRUD functionality using Handlebars.js, SQL, and Sequelize.js, enhancing user engagement and content management.
- Created [SQL Employee Tracker](#) with MySQL and Inquirer by architecting database schema and queries, streamlining business operations for department, role, and employee management.
- Completed UT's Full Stack Web Development Boot Camp consisting of 21 solo and 3 group projects by leveraging GitHub, APIs, and full-stack tools to meet deadlines and budgets.

TEXAS ADVANCED COMPUTING CENTER (UT)

Web and Mobile Applications Developer, Austin, TX

09/2024 - 12/2024

- Engineered data collection and organization tools for researchers using Python, Django, React, TypeScript, and Docker, mastering the stack in 2 weeks.
- Integrated the following functionalities into the Core Portal and Custom CMS systems: URL regex removal, version enabling of apps, new API route tests, link button resizing, allowing Request Tracker to send CC emails on ticket creation
- Reduced supercomputer shutdown incidents from 2 to 0 over the last 7 months by identifying file download sizes and redirecting user actions, improving system reliability.
- Simplified React state management by converting Redux sagas to React Query mutations, optimizing file-handling performance.

JM GAMING

Software Developer & Technical Sound Designer, Austin, TX

09/2020 - 04/2023

Technical Sound Designer & Composer, Indie Gaming

10/2012 - 09/2020

- Led coding and audio integration for 7 released indie games (8th in progress), enhancing gameplay with C# and creative solutions.
- Collaborated cross-functionally to deliver projects on time, earning title credits through results-driven execution.
